The Honorable Steve Austria
U. S. House of Representatives
Washington, D.C. 20515

Dear Congressman Austria:

The National Right to Life Political Action Committee is pleased to endorse you for re-election to the U.S. House of Representatives.

We commend you for your 100% pro-life voting record during the 111th Congress.

We are especially appreciative of your opposition to the massive health care legislation that was recently enacted (H.R. 3590) – legislation that will provide government funding for health plans that pay for abortion on demand, and will promote the rationing of lifesaving treatments.

During congressional consideration of this legislation, you voted for an amendment that would have prevented federal funding of abortion. Unfortunately, that pro-life language did not survive as part of the final enacted health care law, which lacked adequate protections against federal subsidies for abortion and against future federal administrative decrees that could expand abortion.

Your pro-life record has earned you the support of voters who are concerned with the right to life and with the protection of the most vulnerable members of the human family. We look forward to working with you towards our common pro-life goals during the 112th Congress.

Sincerely,
